React.js

Education

University of Michigan, Bachelor's in Computer Science

Sep 2016 – Apr 2020 📍 Ann Arbor, MI

Employment History

Software Engineer, Coetic HR

Jan 2021 – Present 📍 Lansing, MI

- Responsible for the server side implementation of new features. Including the architecture of PostgreSQL tables, and implementing both Rest API's and Web Sockets.
- Participated in all stages of software development from understanding business and customer needs; to implementing efficient server networks, user interfaces and code architecture.

Software Engineer, Menklab Software

Mar 2020 📍 Ada, MI

- Created payment method forms using React and configured a Rest API to handle customer data
- Provided technical support for custom software sales and growth of customer relations

Software Engineer Intern, Menklab Software

May 2019 – Aug 2019 📍 Ada, MI

- Developed and styled React components for Menkpay payment portal
- Codeveloped and managed synchronization between customer databases
- Collaborated with project lead to format Database tables and GraphQL schemas

Organizations

Vice President, Michigan Hackers (UofM)

2018 – 2019

- Directed company connections, account development, and sponsorship
- Planned and executed 12 company engagement and student organized events
- Managed membership outreach and recruiting, increasing membership

Core Team Member, Michigan Hackers (UofM)

2017 – 2018

- Worked on web team to build calendar and event components
- Contributed to Learn2Hack collection of learning resources
